

Former Premier of Greece

Censured.

HE BETRAYED HIS COUNTRY

Declared Everything Ready for War
When in Reality no Prepara-
tion Had Been Made.

ATHENS, (via Brindisi, Italy) May 3.—

"It is probable that no minister ever better deserved humiliation and dismissal than M. Dilyannis, the former premier. A little more than three weeks ago he declared that everything was prepared for war, but until the beginning of the fighting no preparations were made to resist a possible invasion of Thessaly. A few trenches were dug in front of Larissa and one or two earthworks were erected, but ten days ago (the date dispatch left Athens is not given) not a spend had been used to strengthen the earthworks to defend the exits of the passes leading to the Thessaly in plains. All the preparations made were to invade Macedonia, but those were hopelessly inadequate.

A military expert who has been in Athens for some days, says that in one arsenal commanded by a colonel of artillery there were less than fifty cases of shells, and only one field and one mountain battery. The principal military stores are in the hands of the troops at Thessaly only had a reserve of 1,200,000 rounds of shells and a few cases of cartridges. Near Athens there is a good powder factory, but the cartridges have to be imported and there is no manufacturing plant. It is understood that many hundreds of thousands were ordered in Austria, but it is not known where they are, their transport being delayed by the Austrian government. The gun ammunition is also exhausted. The shells which are at the Piræus has been ordered to cast shells in haste.

"There are now in Athens 18,000 reservists who have been called to the colors and who are wandering through the streets in search of shells. The government has no uniforms and clothes and the government stores are without rifles. The government for a week past has been appealing to merchants to sell rifles, of which 200 of the old Gras

and imported by agitators, are being sold to members of the Ukrainian Hetaira Society (national league) at about \$1.57 each. It was the intention of the Ukrainians to use these rifles for the recruits which led to the riot of Tuesday.

A French steamer brought a cargo of rifles and a mob seized a lighter full of weapons. Tuesday's revolution seemed inevitable, the whole bay quarter being looted and the guard of the prison having been requested to leave the city. Tuesday's revolution was such that many officers from the workshops at the Piraeus landed in plain clothes but with uniforms in their portmanteaus, in order to be in readiness to quell the riot. It was the worst of the moment's politics. It is understood that the policy of the new government will be to inaugurate peace on terms not too unfavorable to Germany. The revolution has already soured his relations among the Europeans.

Railroad to Randsburg.
LOS ANGELES, April 30.—Work on the railroad from Kramer to Randsburg will commence, probably, by the last of next week. This will form the cheapest bit of railroad construction in the state, as there is little grading to be done, no rock work, and the soil is readily handled. It is estimated that the entire twenty-seven miles can be built and equipped with two locomotives, two

ACTION IS DEFERRED

Supervisors Hear the Farmers' Committee.

THE PETITION WAS FAULTY

Selection of New Horticultural Commissioners Postponed Till the 13th Instant.

Yesterday afternoon was the time fixed by the Board of Supervisors for considering the matter of appointing a new board of horticultural commissioners for the county. After viewing about two hours in hearing the views of the Farmers' Club expressed by its representatives, it was found that the formal petition from orchardists for the appointment of such commissioners to look after the protection of its fruits was invalid, because of its failure to contain certain particulars. This necessitated the presentation of a new petition, and on this the board deferred action till the 13th inst., which is a week from tomorrow.

The committee representing the Farmers' Club before the supervisors consisted of George L. Warlow, Alex. Gordon and John S. Rose. The committee was filled with farmers, who were deeply interested in the proceedings. The supervisors convened at 2:30 o'clock, and Chairman Sayre immediately announced that the horticultural commission was before the board for consideration, and that the views of any citizens present would be gladly heard.

Mr. Warlow then stepped forward and explained the petition of the Farmers' Club, which had given the matter considerable attention. He said that the desire of the farmers was to see that the expenses of maintaining the commission were small and that the committee work was done and that thoroughly qualified men were selected for the places. The club, Mr. Warlow explained, was not working in the interest of any person or persons, but was interested in the welfare of the county. It was in the interest of the county that the commission should be maintained, and that the views of any citizens present would be gladly heard.

The speaker stated that it was the opinion of the club that the three men named commissioners should be a scientist, who thoroughly understood the nature of insects which injure fruit trees. This man should be employed throughout the year, and should have a close watch on the orchards of the county. He should have the assistance of two citizens, who would act as commissioners, whose duty it would be to see in general way that the interests of the county were protected. The work was carried out, Mr. Warlow stated, that if desirable the club would furnish the board with a list of names of capable citizens, from whom the three commissioners could be selected. They would all agree beforehand that they would not present claims to the county for their services for more than four days in any month.

In reply, the committee members stated that it was the opinion of the club that the scientist who should act as commissioner should be able to pass an examination at the state university in entomology. He should be required to hold a diploma or a satisfactory certificate from this institution.

Supervisor Smith suggested facetiously that the board defer the selection of commissioners until after the election of the county officers, and that the club should have an opportunity to study up and take an examination. Mr. Warlow replied that the club was willing to have the matter postponed indefinitely from a taxpaying point of view.

Mr. Warlow placed himself in a somewhat ambiguous attitude by declaring a few minutes later that "if it was operated judiciously the county would be benefited by the commission. Upon the matter from Supervisors Rose and Sayre Mr. Warlow said that the club was in the vineyard at the present time used attention, but otherwise he could see no occasion for the club. He asked regarding the club and the spider, and then Mr. Warlow admitted that there was need for a commission. He added mildly to the list of pests which were known to be a danger to the county, and that he was willing to try almost any game of chance, from the nickel-in-the-slot machine to horse racing. It is said he has been playing the former a good deal of late, and that he has been losing money. He has even worse losses than the Chinese lotteries. Many persons who have no tendency toward gambling acquire one by patronizing these machines. The temptation to try one's fortune, of course the odds are overwhelmingly in favor of the device, but this does not occur to the dupes until it's too late. It is a shame that these machines should be allowed to prey upon the weakness of the human mind.

Keshishyan, it is said, will leave Fresno after he has settled his troubles and go into business in some other town. He may be a legitimate trader, but if he is a gambler, he will have difficulties with the mere loss of money.

Sanger People Want a Curb on Indulgence—Reports of Officers.

The supervisors at their meeting yesterday received a petition from Sanger citizens asking that the board pass an order prohibiting minors from visiting the Sanger pool tables and making it unlawful for boys to be on the streets after the hour of 8 p. m. The petition was taken under advisement.

The petition to change the name of the Fairview school district from Drum Valley school district was granted.

The contract and bond of the Union Ice Company to furnish ice to the court house, jail and park were approved.

The county physician reported that 46 inmates in the hospital were admitted during the month of April, leaving 11 inmates in the hospital at the close of the month. The term expired on Friday.
